FOUNDRY
management & technology

1987 Annual Editorial Index
By Subject and Title

Automation/Technology/Modernization

	Mo.	Page
Comparing Seven Methods for Producing Ductile Iron	July	38
Family-Owned Foundry Plans Future with Confidence	Feb.	21
Ford Commits $180 Million To Keep CCP Competitive	July	24
Ford Foundries Get $300 Million	May	16
Fort Wayne Foundry Corp. Triples Size To Match Sales	July	26
Howmet Advances Investment Casting Technology	July	42
Just-In-Time—Surviving by Breaking Tradition	July	32
Managing for Success at Talladega Foundry	June	47
Metalcasting—The Honda Way	Nov.	20
Milwaukee Valve Builds New Nonferrous Foundry	May	32
NIBCO Modernizes To Fight Foreign Competition	Feb.	40
Neenah Automates for Production Flexibility	Oct.	20
New $1¼-Million R&D Center at Chicago White Metal	Jan.	34
New Mold Registration System Eliminates Shift Problems	July	34
New Technology Holds Keys to Higher Electric Melting Productivity	Nov.	32
Pulse Firing—Combustion Technique (O/R)	July	44
Technology Is Driving Force at Haley Industries	Sept.	36
Two Technologies Are Combined To Improve Patternmaking (O/R)	Feb.	46

Computers/Software/Controls/Drives

	Mo.	Page
Better Process Control Boosts Competitiveness of Diecasters	Oct.	40
Caterpillar Gives Parts Suppliers Electronic Data Exchange System (O/R)	Jan.	42
Computerized Process Control of Diecasting Machines	Mar.	106
Controller on Furnace Improves Efficiency, Crucible Life (O/R)	Sept.	77
Hand-Held Computer for SPC Programs (O/R)	Aug	46
How Computers Help Produce Better Castings at Lower Cost	Mar.	28
SF&E Uses Swift Program As Aid To Select Best Gating, Feeding System (O/R)	Nov.	42

Editorials

	Mo.	Page
Cheap Foreign Castings May Be Very Expensive	Feb.	5
Competitiveness, Motherhood, and Apple Pie	Apr.	5
FEF: Essential Catalyst for Developing Technical Talent	June	7
15 Reasons To Advertise	Mar.	5
Is Your Foundry Plagued by ATDS?	Nov.	4
Out-of-Date Foundries Have Two Choices: Modernize or Liquidate	Jan.	4
Quality—The Ultimate Competitive Weapon	July	5
The Answer: 4,006 Foundries	May	5
The Power of Commitment to New Technologies	Sept.	4
The Sales Magic of Metallurgical Manipulation	Dec.	4
Wanted: Just-In-Time Casting Suppliers	Aug.	4
Why Neenah Looks to the Future with Confidence	Oct.	4

Governmental Affairs/International

	Mo.	Page
Antibusiness Legislation Is Growing	Nov.	8
Associations & Government Offices	Sept.	D-1
Impact of New Tax Law on Foundries	May	72
Mandated Benefits Pose New Threat to Competitiveness	May	76
Senate Approves 1,000-Page Trade Bill	Sept.	10

Management/Labor/Marketing

	Mo.	Page
Casting Shipments in 1995: $25 Billion	July	8
Diecasters Open Marketing Fund Drive	Jan.	12
Employees Are Partners in Managing Iron Foundry	Apr.	30
Forecasts of Casting Shipments	Feb.	12
General Motors Proposes New Approaches in Supplier Relationships	Nov.	36
Labor Demands Plant Closings Laws	Mar.	12
Metallurgical Engineers Rank High in Salary Survey	Jan.	44
New Training Programs for Foundry Workers	Nov.	48
1987 Foundry Outlook—51% Expect To Boost Shipments	Jan.	26
Pension Portability Is Urged	June	10
The Sales Magic of Metallurgical Manipulation	Dec.	4
Unite for Product Liability Reform	Apr.	12
U.S. Worker Buying Power Highest	Oct.	8
Where-To-Buy	Sept.	WTB-1
Where-To-Buy Manufacturer's Directory	Sept.	B-1
Where-to-Buy Product Category Index	Sept.	A-1
Where-To-Buy Product Directory	Sept.	C-1

Material Handling/Robotics/Manipulators

	Mo.	Page
Automating Material Handling	July	51
Material Handling/Robotics (DATABOOK)	Dec.	F-1
Materials for Handling & Filtering Molten Aluminum	July	42
Robot Gripper Simplifies Investment Caster's Operations (O/R)	Sept.	74

Melting/Refractories/Metal Pouring

	Mo.	Page
A New Frequency Selection Chart for Coreless Induction Furnaces	Apr.	34
Auto Pourer "Learns" Pouring Profile (O/R)	Apr.	49
British Innovations in Binders, Melting, and Patternmaking	Mar.	98
Chrysler Improves Fuel Efficiency on Central Melt Furnaces (O/R)	Sept.	78
Filtering Molten Metal Reaches Maturity	May	40
Foundry Cuts Power Costs 13% with New Induction Melting System (O/R)	Jan.	40
Induction Melting Reduces Metal Losses, Pays for Itself at National Bronze (O/R)	Oct.	48
Ladle Metallurgy Update—Part I	Apr.	38
Ladle Metallurgy Update—Part II	May	48
Launder System Saves Energy for Briggs & Stratton Diecasting Facility (O/R)	Nov.	44
Lining Push-Out System Speeds Furnace Relining at Rodney Hunt (O/R)	Oct.	50
Mechanical Extraction of Furnace Linings Improves Melt Shop Efficiency (O/R)	Mar.	56
Melting Applications '87	June	18
Melting/Refractories (DATABOOK)	Dec.	B-1
Metal Pouring/Filtering (DATABOOK)	Dec.	C-1
New Ladle Heating System Provides Fast Cycles (O/R)	Apr.	49
1987 Exhibit Extender	June	29
Plasma Melter Goes Commercial and Promises Melting Economies (O/R)	Nov.	42
Pryor Foundry Cuts Cooling Costs for Induction Melting of Ductile Iron (O/R)	Oct.	49
Waupaca Foundry Saves $6,000/wk with Laser Controlled Pouring (O/R)	Mar.	60

Metals/Alloys/Casting Processes

	Mo.	Page
ADI Gains Widespread Popularity	Dec.	8
Alloys/Metals/Heat Treating (DATABOOK)	Dec.	A-1
Casting to Near Net Shape	Apr.	22
Diecaster Solves Parts Separation Problem (O/R)	Feb.	46
Heat Treating '87	Nov.	26
New Developments Spur Interest in EPC Process	Feb.	34
Producing Steel Castings in World Record Weights	Jan.	52
Producing Steel Castings To Satisfy Customer Requirements	Sept.	66
The Sales Magic of Metallurgical Manipulation	Dec.	4

Molding/Coremaking/Tooling/Patterns

	Mo.	Page
Automatic Molding Machine Benefits Small Shop (O/R)	Feb.	46
Foundry Tooling Goes High Tech	Mar.	40
Lufkin Expands with Impact Molding, Polyurethane Patterns (O/R)	Sept.	74
Molding/Coremaking/Tooling (DATABOOK)	Dec.	E-1
SF&E Uses Swift Program As Aid To Select Best Gating, Feeding System (O/R)	Nov.	42

Safety/Health/Environment

	Mo.	Page
How To Meet EPA's 1988 Wastewater Regulations	Sept.	48
Preventing Hazy Vision in the Core Room	Sept.	56
Safety/Health/Environment (DATABOOK)	Dec.	I-1
When Considering Sand Reclamation, Plan Waste Disposal	Dec.	54

Sand/Binders/Sand Preparation

	Mo.	Page
Adjustable-Frequency Drive Varies Sand Conveyor Speed (O/R)	Sept.	76
Cooling Return Sand with Three-Stage Process	Oct.	44
Innovative Techniques Spur Green Molding Sand Preparation	July	20
Sand/Binders/Sand Preparation (DATABOOK)	Dec.	D-1
Sand Cooling System Senses Temperature and Volume (O/R)	July	44
Screw Conveyors Transport and Blend No-Bake Sand at Barry Foundry (O/R)	Oct.	48
When Considering Sand Reclamation, Plan for Waste Disposal	Sept.	54

Shakeout/Cleaning/Finishing/Machining

	Mo.	Page
Hot-Pressed Cut-Off Wheel Saves Time, Labor on Casting Gate Removal (O/R)	July	44
New Knockout Hammer Improves Finishing Operations at Funk Fine-Cast (O/R)	Oct.	48
Oscillating Barrels—Latest Advance in Blast Cleaning	Sept.	60
Shakeout/Cleaning/Finishing (DATABOOK)	Dec.	G-1
Shot Peening Improves Fatigue Properties of Airbus Components (O/R)	Nov.	45
Use of Rotary Media Drum Reduces Blast Cleaning Expense at Buck Co. (O/R)	Nov.	42

Testing/Inspection/Measurement

	Mo.	Page
Computerized Brinelling Cuts Costs at Ford's Cleveland Casting Plant (O/R)	May	68
Spectrometer Helps Statistical Control	July	36
Temperature Measurement	Feb.	25
Testing/Inspection/Measurement (DATABOOK)	Dec.	H-1
Testing Roundup '87	Oct.	30

Trade Shows/Associations/Societies

	Mo.	Page
AFS Casting Congress and Exposition Return to St. Louis	Mar.	62
American Cast Metals Association Is Formed	July	8
Casting Industry Suppliers Meet To Reorganize for the Future	Jan.	48
FEF Conference Stresses Opportunities for Engineers	Feb.	43
Foundrymen Pursue Excellence at AFS Expo/Congress	May	60
1987 AFS Award Winners	Mar.	71
